

Dear delegates of the 7<sup>th</sup> HHHS MUN DISEC,

Welcome to the first committee of the General Assembly! As your president, I'd like to express my sheer excitement towards seeing what you can create in this conference given the severity of the case.

I've come a long way since I first started; it's pretty funny looking back on those days. I have participated in more than 5 conferences throughout that period. I may not have participated in as many conferences or won as many awards as some of my colleagues but that doesn't trouble me. Because it's not HOW MANY conferences you've participated in, it's the impact you had on these conferences that matters. I hope I can be as good a president as I can by giving all of you a chance to speak and interact (Yes, even the shy bunch! So come prepared). I know it's sometimes hard to stand on that podium, all eyes on you, I too have experienced it. Do not fret we understand such cases and no one will mock you over any mistakes you make in a speech. It is only natural to make mistakes. Not to undermine you or anything, I know many of you will receive my admiration.

With the big help of my lovely chairs, I have written this guide for you. It has the basic knowledge you need to know concerning the topic. If there are any questions we have left our emails so do not hesitate to email us your questions. Although that shouldn't be an excuse for you not to search everything about your country and other countries concerning the topic.

Finally, we, the dais, would like to wish you a fruitful action packed conference. We hope to achieve great things along the way while having our fair share of fun!

Sincerely,

Hadi Merhi.
